

Program Introduction

The Career Success Program aims to provide all the real-world know-how so students can apply right away to start to learn relevant practical (soft & hard) skills and get part-time jobs so that they achieve a strong profile and get ready for fierce competition in the job market after graduation. This 2-week program (5 sessions) is designed in a way that focuses on individual’s unique situations in a small group and suitable for students who are currently in school and they want to get ready for their career.

Why?

A lot of students struggle to get a job that they want after graduation. Getting a good job after graduation actually starts from when they are still in school. However, most students do not know how they can build a strong profile in the perspective of real-world HR managers. Thus, graduates experience the same “no-job” frustration every year.

At TGH, we focus extensively on “practical and useful.” all training managers are corporate professionals who already achieved success in their own career. Through their own experience, students will learn and model exactly what it takes to start building a successful career when they are still in school.

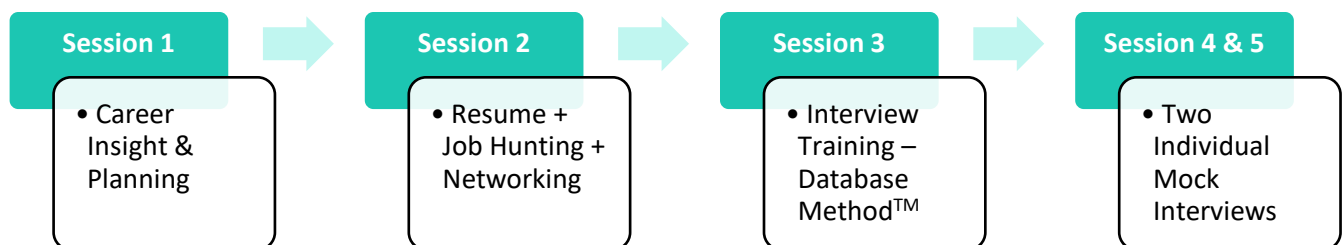

With CSP program, you will be prepared for

- Plan-ahead approach for your career
- What and how you should prepare now
- Increased awareness of your strengths and weaknesses as an international student
- Your Career Management Portfolio including resume, interview skills and networking skills

Program Overview
